Transfers to Bed or Chair	2.4	1.9
Toilet Transfers	2.0	1.8
Walking	2.5	2.5
Stairs	1.8	1.5
Discharge Level	90.9	88.0

*Data submitted for over 15,000 discharges to a national comparative database based on the functional independence measure (FIM), a nationally utilized 7 point rating scale used to rate the independence of rehabilitation inpatients in 18 functional areas. A higher number indicates greater improvement. A discharge level of 100 indicates independence in all areas.
